### PRACTICE 1

You are going to read an article about open house. Six sentences have been removed from the article. Choose from the sentences (A – H) to fit each gap (1 – 6). There are two extra sentences which you do not need to use. For each question, write the correct answer (A – H) in the space provided.

One of Malaysia's many unique traditions is having an open house. During festivals such as Hari Raya Puasa and Deepavali, visitors are welcome to the feasts hosted by local dignitaries as well as the homes of ordinary Malaysians. 

1	
---	--

 The event is open not only to family and friends, but also complete strangers. 

2	
---	--

It is important for visitors to observe the rules of etiquette when attending an open house. 

3	
---	--

 It is polite to stop by any time from 5 minutes after the designated start time to 30 minutes before the slated finish time. It is also customary to remove your shoes before entering a home. This may not be necessary if the event is held at a community centre.

When visiting a home, you should address older men as 'Uncle' and older women as 'Auntie'. If the host is Muslim, males and females sometimes do not shake hands. If you are male, you should wait and see whether the female proffers her hand. 

4	
---	--

It is good manners to queue up for the food at an open house. You should never push and shove others in the queue. Neither should you overload your plate, which is a sign of greed. 

5	
---	--

You may wish to give a token of thanks to your host. If you do, you should be aware of the taboos for each community. For example, you should not give a Chinese host handkerchiefs, sandals or sharp objects as a gift. 

6	
---	--

- A An open house usually has fixed hours.
- B An open house hosted by a dignitary typically takes place at a community centre rather than his or her home.

Giving and receiving gifts has become an age-old practice in all communities. Presents are not necessarily bought. 

1	
---	--

 We usually like to rush to shopping malls to look

for presents for birthdays, anniversaries and Christmas. 

2	
---	--

 Besides that, it adds a personal touch, especially if you know the receiver's taste. It is interesting to mix and match materials, slogans and symbols that are relevant and meaningful to the person that you plan on giving the gift to.

You can make gifts from seashells that you picked on previous outings to the beach. You can string them together and make a lovely necklace. 

3	
---	--

 Lampshade covers sold individually can be matched with various stands. They can be further patched with either seashells or other motifs and assembled into unique lampshades. How about a newspaper or magazine box? 

4	
---	--

 With the help of a computer, you can type your own phrases or slogans and paste them on the box. It is an ideal gift for those who are studying.

Those who have a talent for painting or carving can come up with their own masterpieces as gifts. 

5	
---	--

 Nature lovers can indulge in their hobbies and produce potpourri. This is an assortment of dried flower petals that have been scented according to the best loved fragrance of the receiver. When nicely packed in a little container, it can be an excellent gift.
