

## LET'S COUNT THEM

Hitunglah.

Example:

$2 + 1 = \underline{\hspace{2cm}}$

Two plus one is three.

|   |  |
|---|--|
| 1. $4 + 2 = \underline{\hspace{2cm}}$   | Four plus <u>          </u> is <u>          </u> .     |
| 2. $5 + 3 = \underline{\hspace{2cm}}$   | <u>          </u> plus three is <u>          </u> .    |
| 3. $8 + 1 = \underline{\hspace{2cm}}$   | Eight plus <u>          </u> is <u>          </u> .    |
| 4. $9 - 4 = \underline{\hspace{2cm}}$   | <u>          </u> minus four is <u>          </u> .    |
| 5. $10 - 6 = \underline{\hspace{2cm}}$  | Ten minus <u>          </u> is <u>          </u> .     |
| 6. $15 - 3 = \underline{\hspace{2cm}}$  | Fifteen minus <u>          </u> is <u>          </u> . |
| 7. $20 - 10 = \underline{\hspace{2cm}}$ | <u>          </u> minus ten is <u>          </u> .     |
| 8. $12 + 7 = \underline{\hspace{2cm}}$  | Twelve plus <u>          </u> is <u>          </u> .   |
| 9. $13 + 2 = \underline{\hspace{2cm}}$  | Thirteen plus <u>          </u> is <u>          </u> . |
| 10. $18 - 5 = \underline{\hspace{2cm}}$ | <u>          </u> minus five is <u>          </u> .    |
