A. feathers:

C. fur:

B. bare skin:

D. scales:

3 How do these animals move?

4 Label the body parts of the invertebrates.

1 Write the vertebrate group each animal belongs to.

fish mammal bird reptile

2 Match the vertebrates to their body covering.

feathers

bare skin

fur

scales

3 Unscramble the letters to name the invertebrates. Then, draw lines to match the animals with their body parts.

e e b

linas

strellob

legs

wing

shell

abdomen

claw

4 Complete the sentences. Write *herbivores* or *carnivores*.

Eagles eat other
animals. They are

Cows eat grass.
They are

1) Where do these animals live? Match.

in water

in the soil

on land

2) What type of vertebrate is it? Write.

amphibian

reptile

mammal

bird

fish

3 What body covering does it have? Circle and write.

B	A	R	E	S	K	I	N
T	D	S	F	U	R	Z	D
F	E	A	T	H	E	R	S
N	E	S	C	A	L	E	S

eagle →

dog →

goldfish →

frog →

4 Read and cross out (X) the wrong words.

A. This is a **cat** / **bird**.
 It is a **mammal** / **bird**.
 It has **bare skin** / **fur**.
 It lives **in water** / **on land**.
 It **walks** / **flies**.

B. This is a **snake** / **lion**.
 It is a **reptile** / **an amphibian**.
 It has **feathers** / **scales**.
 It lives **in the soil** / **on land**.
 It **slithers** / **swims**.

C. This is a **crocodile** / **fish**.
 It is a **bird** / **fish**.
 It has **scales** / **fur**.
 It lives **on land** / **in water**.
 It **flies** / **swims**.

5 Read and circle the correct invertebrate.

A. It has an exoskeleton. →

B. It has a soft body. →

C. It has a shell. →

D. It has antennae. →

E. It has wings. →

F. It has claws. →

6 Draw two invertebrates. Then, write.

It is a _____.

It is a _____.

7 Read and match.

herbivore

crocodile

flat teeth**carnivore**

zebra

sharp teeth**omnivore**

bear

sharp and flat teeth

cow

pig

8 Read and complete the sentences.

viviparous **oviparous** **mother's womb** **eggs**

A. _____ animals
are born from their
_____.

B. _____ animals
are born from
_____.
