

The people in the dialogue are giving suggestions and accepting or rejecting suggestions.

Elisa : Why don't we organise a class party?

Laily : That's a great idea. But we don't have much money in our class fund.

Ashok : Then I suggest we collect money for the party.

Elisa : No, I don't think we should.

Zamri : How about asking our classmates to bring food?

Laily : You mean potluck! Yes, that sounds good.

Ashok : We'll ask our classmates to write down what they want to bring on a list.

Zamri : Okay. What about putting up decorations?

Elisa : I don't think decorations are necessary. It's wasteful.

Laily : Who will bring plates, cups, and cutlery?

Ashok : I recommend we buy them.

Zamri : That's not a good idea.

Elisa : I think Ashok's right.

Laily : Me, too. We're already going to ask our classmates to bring food.
