

NOTES:

PREPOSITIONS OF TRANSPORT (By - In - On)

- By is used after a Verb
- In is used for private transport
- On is used for public transport

By

BY - ways and modes to travel

"I go to work **by** tram, every morning."

"To see more of the surroundings, we prefer to travel **by** sea."

We use 'by' to describe the mode (or way) of travel. By is used either after a verb or a noun.

E.g. journey, voyage, car, bus, plane, road, sea, air etc.

In

IN - private transport

"I can seat only 3 people **in** my car."

"The driver doesn't allow dogs **in** his taxi."

We use *in* when we are **inside** the vehicle and do not have much room to move. Most commonly *in* is used for **private transport** – when you don't share the vehicle with (unknown or) other passengers.

On

ON - transportation on which you can move

"I can't call right now, I'm **on** the bus."

"Let me give you a ride – hop **on** the back of my bike."

We use *on* when you can **stand**, **walk** or **sit** on top of the vehicle. Most commonly we use *on* for **public transport**; transportation on which you can move even though the vehicle itself is in motion. In this case you can approach 'on' as a synonym of 'inside'

E.g. planes, trams, ferries, subways, trains, ships, bikes, skateboards, skis, motorcycles, etc.

EXERCISE:
