Relative Clauses

I. Match the machines Flint Lockwood invented with what they can or can't do.

- | | |
|------------------------------|------------------------------|
| 1. Spray-on shoes | A. It translates thoughts |
| 2. Remote control television | B. it turns water into food. |
| 3. Hair un-balder | C. It can't fly |
| 4. Flying car | D. they can fly |
| 5. Monkey thought translator | E. it grows too much hair |
| 6. Ratbirds | F. it can walk |
| 7. A machine | G. they don't get off |

II. Now combine both parts using restrictive relative clauses. Start the sentences with the given sentence:

He invented...

Ex: 1. He invented spray-on shoes that don't get off.

- 2
- 3
- 4
- 5
- 6
- 7

III. Work in small groups. Think about 3 perfect inventions. Then write a relative clause saying what it can do.

Ex: We are going to invent a machine that can do the homework for us.
