

Divide con decimales:

Por ejemplo:

Divide con decimales:

D

$676 \div 52$

$676 \div 52 = 13$

Diagram showing the division of 676 by 52. The dividend 676 and divisor 52 are shown in boxes. A decimal point is placed after the 7 in 676. The quotient 13 is written below the line. A yellow diamond with the letter 'D' is next to the diagram.

E

$14214 \div 75$

$14214 \div 75 = 189.52$

Diagram showing the division of 14214 by 75. The dividend 14214 and divisor 75 are shown in boxes. A decimal point is placed after the 1 in 14214. The quotient 189.52 is written below the line. A yellow diamond with the letter 'E' is next to the diagram.

F

$24168 \div 38$

$24168 \div 38 = 636$

Diagram showing the division of 24168 by 38. The dividend 24168 and divisor 38 are shown in boxes. A decimal point is placed after the 1 in 24168. The quotient 636 is written below the line. A yellow diamond with the letter 'F' is next to the diagram.

G

$1068 \div 89$

$1068 \div 89 = 12.0$

Diagram showing the division of 1068 by 89. The dividend 1068 and divisor 89 are shown in boxes. A decimal point is placed after the 6 in 1068. The quotient 12.0 is written below the line. A yellow diamond with the letter 'G' is next to the diagram.
