II. Reading

Trees for the Future

Minh Tr  n, October 22

Why should we plant trees? Because they change lives. Trees give food to people and animals. We need trees to build houses and schools. We burn wood from trees to keep warm in the winter. Trees help to keep our environment clean and green. Trees for the Future work with farmers and community groups to plant trees. We also help people grow special forest gardens with fruits and vegetables. We help people all around the world have better lives by planting trees. You can help, too, by donating money on the Trees for the Future website. Every dollar you donate can buy a new tree.

1. What can we build with trees?

2. How do trees help our environment?

3. What is in a forest garden?

4. How can you help Trees for the Future?

5. What can one dollar help to buy?
