

Einstein's riddle

The situation

1. There are 5 houses in five different colors.
2. In each house lives a person with a different nationality.
3. These five owners drink a certain type of beverage, smoke a certain brand of cigar and keep a certain pet.
4. No owners have the same pet, smoke the same brand of cigar or drink the same beverage.

The question is: *Who owns the fish?*

Hints

- the Brit lives in the house with red walls
- the Swede has a dog
- the Dane drinks tea
- the green house is directly to the left of the white house
- the owner of the green house drinks coffee
- the person who smokes Pall Mall owns a bird
- the owner of the yellow house smokes Dunhill
- the man living in the center house drinks milk
- the Norwegian lives in the first house
- the man who smokes Blends lives next to the cat owner
- the horse owner lives next to the man who smokes Dunhill
- the man who smokes BlueMaster drinks beer
- the German smokes Prince

- the Norwegian lives next to the blue house
- the man who smokes Blends has a neighbour who drinks water

Einstein wrote this riddle this century. He said that 98% of the world could not solve it.

House	1	2	3	4	5
Nationality					
Colour					
Drink					
Cigar					
Pet
