

Practice 5 Subtraction with Regrouping in Ones, Tens, Hundreds and Thousands

- Follow the steps to subtract.
Then, fill in the blanks.

Step 1:

$$\begin{array}{r} 8 \quad 2 \quad \overset{6}{\cancel{7}} \quad \overset{10}{\cancel{0}} \\ - 1 \quad 3 \quad 7 \quad 9 \\ \hline 1 \end{array}$$

First, subtract the ones.

We cannot take away 9 ones from 0 ones.
So, we regroup the tens and ones in 8270.

7 tens 0 ones = 6 tens 10 ones

Step 2:

$$\begin{array}{r} 8 \quad \overset{1}{\cancel{2}} \quad \overset{16}{\cancel{7}} \quad \overset{10}{\cancel{0}} \\ - 1 \quad 3 \quad 7 \quad 9 \\ \hline 9 \quad 1 \end{array}$$

Then, subtract the tens.

We cannot take away 7 tens from 6 tens.
So, we regroup the hundreds and tens in 8270.

2 hundreds 6 tens = hundred tens

Step 3:

$$\begin{array}{r} \overset{7}{\cancel{8}} \quad \overset{11}{\cancel{2}} \quad \overset{16}{\cancel{7}} \quad \overset{10}{\cancel{0}} \\ - 1 \quad 3 \quad 7 \quad 9 \\ \hline 8 \quad 9 \quad 1 \end{array}$$

Next, subtract the hundreds.

We cannot take away 3 hundreds from 1 hundred.
So, we regroup the thousands and hundreds in 8270.

8 thousands 1 hundred = thousands
 hundreds

Step 4:

$$\begin{array}{r} \overset{7}{\cancel{8}} \quad \overset{11}{\cancel{2}} \quad \overset{16}{\cancel{7}} \quad \overset{10}{\cancel{0}} \\ - 1 \quad 3 \quad 7 \quad 9 \\ \hline 6 \quad 8 \quad 9 \quad 1 \end{array}$$

Lastly, subtract the thousands.
