

Topic: Subtraction

Name:

Year 4:

Exercise 1

Subtract the given numbers.

a) Subtract 21 524 from 57 645

Estimate answer:

round off to the nearest thousand

57 645 ≈

21 524 ≈

-					

Actual answer

	5	7	6	4	5
-	2	1	5	2	4

The actual answer is

The estimate answer is

The actual answer is

to

So, it is

b) Subtract 23 615 from 65 749

Estimate answer:

round off to the nearest thousand

65 749 ≈

23 615 ≈

-					

Actual answer

-					

The actual answer is

The estimate answer is

The actual answer is

to

So, it is

c) Subtract 21 524 from 73 841

Estimate answer:

round off to the nearest thousand

73 841 ≈

21 524 ≈

-					

Actual answer

	7	3	8	4	1
-	2	1	5	2	4

The actual answer is

The estimate answer is

The actual answer is to

So, it is

d) Subtract 32 746 from 80 000

Estimate answer:

round off to the nearest thousand

80 000 ≈

32 746 ≈

	8	10	0	0	0
-					

Actual answer

	8	10	10	10	10
-	3	2	7	4	6

The actual answer is

The estimate answer is

The actual answer is to

So, it is
