

Perimeters Around the Room Activity

Using a ruler, measure the lengths of the sides of the below items in your house, then calculate the perimeter. (Round to the nearest centimeter.) For the 2 Your Choice options, please select small items that are easy to measure with a ruler such as a juice box or a picture frame. In your books, draw the shape of each item and label the lengths of its sides. Show your work for the calculations. Take a picture of your page and upload it into the classroom.

Example:

Greeting Card:

$$\begin{array}{r} 5 \\ 5 \\ 8 \\ + 8 \\ \hline 26 \end{array}$$

Perimeter: 26 cm
