

$$10 - 2 + 3$$

Diagram illustrating the order of operations for the expression  $10 - 2 + 3$ . Brackets connect 10 and 2, and 2 and 3. A plus sign is placed below the first bracket.

$$15 - (6 + 2)$$

Diagram illustrating the order of operations for the expression  $15 - (6 + 2)$ . Brackets connect 6 and 2. A minus sign is placed below the first bracket.

$$8 - (5 + 3)$$

Diagram illustrating the order of operations for the expression  $8 - (5 + 3)$ . Brackets connect 5 and 3. A minus sign is placed below the first bracket.

$$20 - (1 + 6)$$

Diagram illustrating the order of operations for the expression  $20 - (1 + 6)$ . Brackets connect 1 and 6. A minus sign is placed below the first bracket.

$$8 - 2 + 5$$

Diagram illustrating the order of operations for the expression  $8 - 2 + 5$ . Brackets connect 8 and 2, and 2 and 5. A plus sign is placed below the first bracket.

$$9 - 8 + 10$$

Diagram illustrating the order of operations for the expression  $9 - 8 + 10$ . Brackets connect 9 and 8, and 8 and 10. A plus sign is placed below the first bracket.
