

Cloze. Read this article about endangered fish. Then complete the paragraphs with the words from the box.

Fish in danger!

Fish is one of the world's favorite dishes _____ the world. The average

person eats 36 pounds (16 kg) of fish every year. But many kinds of _____ around the world are disappearing. _____ people catch too many of them. Scientists say that 90 percent of the biggest fish are gone now. If we catch too many big fish now, there won't _____ any baby fish in the future. Our way of fishing now is not sustainable. It can't continue for a long _____ without hurting the environment. What can we _____? Here we have some options... **Plan A:** Don't eat fish! Tell people to stop buying and eating fish. Put ads in _____ and magazines, and make TV commercials to explain why fishing hurts the environment

Plan B: Make a special symbol for fish that is caught in a sustainable way. Make commercials to tell people to look for this symbol in supermarkets and _____.

Plan C: Strict laws about fishing Make stronger laws about _____ many fish people can catch. Send special police in fast boats to all of the fishing areas.

All plans are useful. It's time to _____ protecting fish!
