Question type: True/False

Read the text and answer the questions. Write T or F at the end of each question/statement.

Department Store Robbed!

One night, in Germany, three men robbed a department store. Cameras showed three men with masks over their faces robbing the store and getting away. The men stole jewelry that was worth \$6.8 million. The police didn't know who the men were until they found a drop of sweat, which contained DNA. Scientists tested the DNA and, amazingly, they found two matches—identical twins named Hans and Franz. The police knew that one of the twins had robbed the store, but they didn't know which one. They questioned both of them, but each twin said that he did not rob the store. Finally, the police had to let both twins go. They were not able to find out which one was the robber. Now, all the police can do is watch both twins and hope that one of them leads them to the stolen jewelry.

14. Two brothers robbed a department store.

15. Three men stole computer equipment that was worth \$6.8 million.

16. DNA led the police to two identical twins.

17. The police were not able to find out which twin was the robber.

18. The police were able to find the stolen jewelry.

Unit 2: Drive Slowly!

We were able to travel. (use : could)

He is late to school. (use : always)

Where is the post office? (indirect question)

.....,are you from ? - I am from Riyadh.

Did they play football? – Yes,..... (complete)

I finished my work on time. (use : not)

Reading

Read the text and answer the questions. Write T or F at the end of each question/statement.

Why do we have speed limits?

Most roads in most countries have a speed limit. When driving on these roads, drivers must obey the speed limit. In the U.S., the speed limit on most highways is 65 miles (105 kilometers) per hour. In Europe, the speed limit on most highways is a little higher—about 75 miles (120 kilometers) per hour.

Generally, speed limits are intended to make driving safer for everyone. People who are driving fast are more likely to die in car accidents. Over the past 40 years, lowering the speed limit on highways has lowered the amount of people who have died in car accidents. Some roads also have minimum speed limits. This means that you must not drive slower than the minimum speed. Highways have minimum speed limits because people who drive too slowly can be dangerous when all of the other drivers are moving fast.

Speed limits are also made for environmental reasons. Driving slower uses less gas and causes less pollution. But, whatever the reason for the speed limit, no matter what country you are driving in, you must obey the speed limit. If you drive too fast, you will probably have to pay a fine, or penalty.

16. The speed limit in Europe is generally lower than in the U.S.

17. Speed limits help keep people safe.

18. Driving too fast can cause people to die in a car accident.

19. It is always safe to drive slowly.

20. Driving fast causes less pollution.
