DATE: Monday 21st February, 2022
TEACHER: LCDA. CARLOTA VELA MEDINA
TOPIC: A Fun Experiment
Tema: Un experimento divertido
Actividad 1. Leer el experimento otra vez y enumerar las figuras en el orden correcto.
Actividad 2. Poner las oraciones en el correcto para describir el proceso del experimento.
Actividad 3. Leer el vocabulario.
Actividad 4. Realizar el liveworksheet, wordwall and Quizizz.

Science

A Fun Experiment: sink or swim?

We can do this experiment with things that we can find in the house. For this experiment, you need one pitcher of water and two oranges: one peeled and one unpeeled.

We put the oranges in the water and we see which orange sinks and which one floats.

First, put the unpeeled orange in the water. What do you see? It is sinking!

Then you can test the peeled orange. What happens? It floats! The air in the unpeeled orange makes it float and it doesn't sink.

Exercise 1. Read the experiment again and number the pictures in the correct order (1-4).
