

CONNECTION BETWEEN CAPACITY (L) AND VOLUME (m³) - II

$$1 \text{ dm}^3 = 1 \text{ litre}$$

1.- Convert to liters (L):

- | | | |
|------------------------------|-------------------|---|
| a) 54 dm ³ = | L | |
| b) 7.83 m ³ = | dm ³ = | L |
| c) 0.2 dam ³ = | dm ³ = | L |
| d) 0.001 hm ³ = | dm ³ = | L |
| e) 98 cm ³ = | dm ³ = | L |
| f) 510000 mm ³ = | dm ³ = | L |
| g) 0.00009 km ³ = | dm ³ = | L |

2.- Drag the correct result:

- | | | | |
|----------------------------|-----|----------------------------|----|
| a) 54 dm ³ = | L | d) 5.4 m ³ = | L |
| b) 75 cm ³ = | cL | f) 0.75 dam ³ = | kL |
| c) 30000 cm ³ = | daL | g) 3 m ³ = | hL |
