

# Commission Earnings

## Converting a Percentage into Decimal Form

$$5\% \text{ ----> } \frac{5\%}{100\%} = 0.05$$

$$25\% \text{ ----> } \frac{25\%}{100\%} = 0.25$$

Convert the following percentages into decimal form

35%		8%	
50%		2.5%	

**Commission Earnings = Sales x Commission in decimal form**

Example: Sally earns 3% commission on her monthly sales of \$25,852

Sally's Commission Earning = monthly sales x commission in decimal form

$$\begin{aligned} \text{Sally's Commission Earning} &= \$25,852 \times 0.03 \\ &= \$775.56 \end{aligned}$$

Name	Monthly Sales	Commission	Sales x Commission	Earnings
Jimmy	\$530,000.00	6%	x	
Susie	\$40,375.78	9%	x	
Robert	\$110,555.25	5%	x
