poor decision-making	skills
the susceptibility to	church in their life

Do you think the statements make sense? Do you agree with them?

5. _____ **Fill the gaps:**

“If you’re listening right now and you have a tattoo, you’re probably thinking “this is really _____. But remember, human non-verbal communication is _____ built around _____ and artifacts that we _____ and _____. And this can _____ judgment and interpretations, and these even lead to how much money people can _____. Here is a simple example: think to how much time people spend _____ over what their online avatar is going to be, like what is going to be that representation to people who may not even meet me in real live.”

6. _____ **Listen to the clip and mark all psychological reasons why we seem to get tattoos:**

- a) a stronger sense of identity
- b) exhibitionism
- c) transformation

- d) masochism
- e) control over death

Could you add any other reasons to the list?

*“Individuals with tattoos have a stronger sense of identity. This is an important point **to drive home**: identity and tattoos are closely related.”*

The idiom *to drive home* means to emphasize an important point about something to someone.

Read the examples, then make up your own sentences:

- a) While explaining the world map, the teacher used a globe to make things clear and drive home the lesson.
- b) The coach held a meeting with the team just before the match, to drive home the importance of team spirit.
