Lesson 2: Languages

Activity 5 Writing

Write about the languages that you and your family speak.

Use Malik's comment to help you answer. Make changes so that it is true for you.

I'm from Morocco. My native language is Arabic. I'm learning English and French at school. I know a little Japanese, too, because I watch Anime. My father speaks Spanish because he worked in Spain for 5 years. My sister learnt to speak a little German from a German classmate.

Foreign languages are easy to learn. I'm good at learning languages because I practice a lot at school. Also, I read stories and watch films in foreign languages to learn these languages better. Moreover, I play online games with foreign friends to learn their languages.
