### The Shape Game

Look at this poem,  
don't just read – \_\_\_\_\_<sup>1</sup>!  
And guess some of the shapes  
that you've met in this book.

This one  
is \_\_\_\_\_<sup>2</sup>, like  
a building in Rome.  
It's a tough one to crack.  
That's right – it's a \_\_\_\_\_<sup>3</sup>.

Do you remember the  
\_\_\_\_\_<sup>6</sup>?  
The cream of the crop!  
Just put in some  
\_\_\_\_\_<sup>7</sup>  
and put a  
c h e r r y  
on the  
t o p !

Next time you're thirsty  
and you want a \_\_\_\_\_<sup>4</sup>,  
you'll need one of these,  
I think. When it's hot,  
what I find nice is  
a frozen \_\_\_\_\_<sup>5</sup>  
that's made of ice.

T h e  
last of  
my shapes  
is just right for  
the \_\_\_\_\_<sup>8</sup>.  
I hope you've enjoyed  
this game as much as  
me! A windsurfer needs  
this, or the sailor of a  
\_\_\_\_\_<sup>9</sup>. Do you think  
that you can guess it now?  
Think of the Burj Al Arab  
and you can't fail. I think  
you've got it – yes, it's  
a \_\_\_\_\_<sup>10</sup>!

2 Now write a poem of your own. Try a *concrete* (shape) poem!
