

95. Which of these events is not a phase change?

- 1) Alcohol is boiled.
- 2) Chalk is crushed.
- 3) Stream condenses.
- 4) Gasoline evaporates.

96. Which element is not diatomic molecule at Standard Temperature Pressure?

- 1) Oxygen
- 2) Hydrogen
- 3) Helium
- 4) Nitrogen

97. Which part of the Earth Structure is Magma in?

- 1) Crust
- 2) Mantle
- 3) Inner core
- 4) Outer core

98. Which of the following is the Local Wind?

- 1) Trade winds
- 2) Land Breeze-Sea Breeze wind
- 3) Monsoonal wind
- 4) Northeast wind

99. What is the main gas that is responsible for trapping heat in the atmosphere?

- 1) Oxygen
- 2) Carbon dioxide
- 3) Sulphur dioxide
- 4) Nitrogen

100. Which of the following has not its own moon?

- 1) Mercury and Venus
- 2) Neptune and Jupiter
- 3) Mars and Saturn
- 4) Venus and Uranus
