Home Safety

In the United States there's a burglary almost every 15 seconds. There are a lot of things you can do to protect your house from burglars.

First of all, you shouldn't let people you don't know into your home. You should always look through the peephole before you open the door. It's also a bad idea to leave money, jewelry, or keys next to windows. Always lock all doors and windows when you leave the house, and if possible, install a burglar alarm system and check it often to make sure it works properly.

Other ways to protect your home are to leave the radio on when you are away and put dusk-to-dawn lights in the garden. Then, anyone watching the house will think that someone is there.

Finally, never put up a fight with a burglar. Just hand over your valuables and then call the police. It's better to be safe than sorry.

- 1 You don't need to test your burglar alarm system.
- 2 Don't leave radios on when you're not home.
- 3 Dusk-to dawn lights will make people thinks you're home.
- 4 If you see someone break into a house, call a Neighborhood Watch program.
- 5 If a burglar breaks into your home, don't fight back.
