My trip to Tokyo

I went to Tokyo with my family in May last year. Tokyo is the **capital city** of Japan. It was the best holiday I have ever had. We flew for 8 hours from Jakarta. But, it was not a direct flight so we had to **transit** in Hong Kong for two hours before getting on a **connecting flight** to Tokyo. We stayed there for five days.

It was **spring** so it the weather was cool. Tokyo is a big city so there were many things we could do. We visited the **imperial** palace where they royal family still lived. My mom was so happy to be in Ginza, a shopping district in Tokyo. She bought a lot of souvenirs for her friends. We also went to see the Buddhist **temple** called the Senso-ji temple.

We had a picnic in Ueno Park. The park was the biggest park in Tokyo. Many families also had a **picnic** because the weather was getting warmer. We also visited the Ueno Zoo **while** we were there.

Finally, before leaving the city, we went up the Tokyo Skytree. It was a 634 meter-tall tower where we could go up to the **observation** levels and see the city from up high. It was my favorite part of the trip. The place was full of tourists but we had a good time there. It was an **unforgettable** trip.
