G. Read and answer the questions.

●	<div>Jared Moore Health Class August 27th</div> <h3>Health Class</h3> <p>We have a health class once a week. Today we studied our hearts. We learned that our hearts are muscles. They need a lot of exercise.</p> <p>The heart is a strong muscle. It sends blood to our fingers, our legs... and even to our brains. It's very important, so we should take care of it. Exercising is good for our hearts, so we should play sports.</p> <p>I am often sick. I sometimes have a headache or a stomachache, and I sometimes have a sore throat.</p> <p>I should take care of my health. I want to go swimming and play more sports.</p>
●
