

## NAMING CHEMICAL COMPOUNDS

Give the name or formula of the following ionic compounds.

- |                                   |                              |
|-----------------------------------|------------------------------|
| 1. $\text{Na}_2\text{CO}_3$ ..... | 12. Sodium phosphide.....    |
| 2. $\text{Na}_2\text{SO}_4$ ..... | 13. Sodium phosphate .....   |
| 3. $\text{MgBr}_2$ .....          | 14. Calcium phosphate.....   |
| 4. $\text{KCl}$ .....             | 15. Silver nitrate .....     |
| 5. $\text{FeCl}_2$ .....          | 16. Iron oxide .....         |
| 6. $\text{CrF}_2$ .....           | 17. Silver chloride .....    |
| 7. $\text{Al I}_3$ .....          | 18. Potassium sulfide .....  |
| 8. $\text{Mg}_3\text{P}_2$ .....  | 19. Calcium carbonate.....   |
| 9. $\text{CuNO}_3$ .....          | 20. Magnesium fluoride ..... |
| 10. $\text{PbO}$ .....            | 21. Aluminum sulfide .....   |
| 11. $\text{K}_3\text{PO}_4$ ..... | 22. Beryllium chloride ..... |
