Ex2: Fill in each numhered blank with a suitable word to complete the followving

Drought is an extended period of unusually (1)_____ weather when there is not enough rain. The lack of precipitation can cause a variety of problems for local communities, including damage to crops and a shortage (2) _____drinking water. These effects can lead to devastating economic and social disasters, such as famine, forced migration away from drought-stricken areas, and conflict over remaining resources.

Because the full effects of a drought can develop slowly over time, impacts can be (3)_____. However, drought can have drastic and long-term effects on vegetation, animals, and people. Since 1900, more than 11 million people have (4)_____ and more than 2 billion people have been (5)_____by drought. Drought is also one of the costliest weather-related disasters. Since 2014 California has lost at least 2 billion-dollars a year, due to drought.

Drought is a complicated phenomenon, and can be hard to (6)_____. One difficulty is that drought means (7)_____things in different regions. A drought is defined depending on the average amount of precipitation that an area is accustomed to receiving.

For example, in Atlanta, Georgia, the (8)_____ rainfall is about 127 centimeters (50 inches) a year. If significantly less rain falls, there may be water shortages and a drought may be declared. However, some arid regions, such as the deserts of the American Southwest, may receive less than about 25 centimeters (10 inches) of rainfall in a non-drought year. A drought in Atlanta could be a very wet period in Phoenix, Arizona!
