

L.Q. Can you calculate the perimeter and area of rectilinear shapes?

Calculate the area of these rectilinear shapes by finding the area of each rectangle and adding them together:

Rectangle A: _____ x _____ = _____ cm²

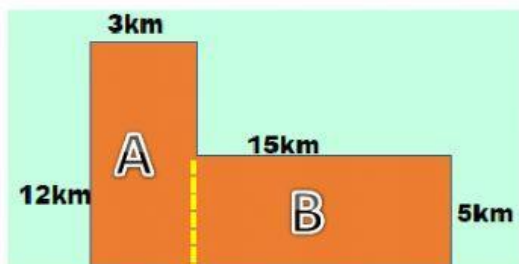

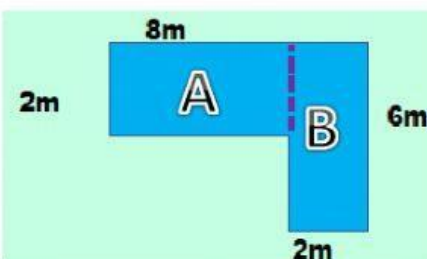

Rectangle B: _____ x _____ = _____ cm²

Total Area: A: _____ + B: _____ = _____ cm²

Rectangle A: _____ x _____ = _____ m²

Rectangle B: _____ x _____ = _____ m²

Total Area: A: _____ + B: _____ = _____ m²

Rectangle A: _____ x _____ = _____ km²

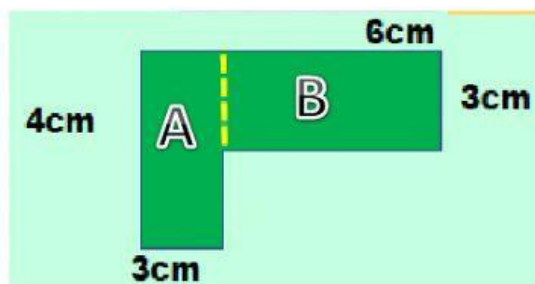

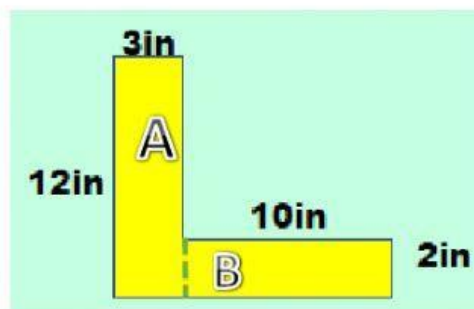

Rectangle B: _____ x _____ = _____ km²

Total Area: A: _____ + B: _____ = _____ km²

Rectangle A: _____ x _____ = _____ inches²

Rectangle B: _____ x _____ = _____ inches²

Total Area: A: _____ + B: _____ = _____ inches²

Rectangle A: _____ x _____ = _____ cm²

Rectangle B: _____ x _____ = _____ cm²

Total Area: A: _____ + B: _____ = _____ cm²

Rectangle A: _____ x _____ = _____ mm²

Rectangle B: _____ x _____ = _____ mm²

Total Area: A: _____ + B: _____ = _____ mm²
