The Wright Brothers—Men with a Vision

Before You Read

1. Do you like to travel by airplane? Why or why not?
2. What are the names of some famous inventors?

CD 2, TR 01

Read the following textbook article. Pay special attention to simple-past-tense verbs.

Did You ***Know?***

The Wright brothers never married. Their only love was aviation.

Wilbur Wright, 1867–1912; Orville Wright, 1871–1948

Over 100 years ago, people only **dreamed** about flying. The Wright brothers, Wilbur and Orville, **were** dreamers who **changed** the world.

Wilbur Wright **was** born in 1867 and Orville **was** born in 1871. In 1878, they **received** a paper flying toy from their father. They **played** with kites and **started** to think about the possibility of flight.

When they were older, they **started** a bicycle business. They **used** the bicycle shop to design their airplanes. They **studied** three aspects of flying: lift, control, and power. In 1899, they **constructed** their first flying machine—a kite made of wood, wire, and cloth. It **had** no pilot. Because of wind, it was difficult to control. They **continued** to study aerodynamics.[1] Finally Wilbur **designed** a small machine with a gasoline engine. Wilbur **tried** to fly the machine, but it **crashed**. They **fixed** it and **flew** it for the first time on December 17, 1903, with Orville as the pilot. The airplane **remained** in the air for twelve seconds. It **traveled** a distance of 120 feet. This historic flight **changed** the world. However, only four newspapers in the U.S. **reported** this historic moment.

The Wright brothers **offered** their invention to the U.S. government, but the government **rejected**[2] their offer at first. The government **didn't believe** that these men **invented** a flying machine. Finally, President Theodore Roosevelt **investigated** their claims and **offered** the inventors a contract to build airplanes for the U.S. Army.

December 17, 2003, **marked** 100 years of flight. There **was** a six-day celebration at Kitty Hawk, North Carolina, the location of the first flight. A crowd of 35,000 people **gathered** to see a replica[3] of the first plane fly. The cost to re-create the plane **was** $1.2 million. However, it **rained** hard that day and the plane **failed** to get off the ground.

You can now see the Wright brothers' original airplane in the Air and Space Museum in Washington, D.C.

[1] *Aerodynamics* is the branch of mechanics that deals with the motion of air and its effect on things.
[2] *Reject* means not accept.
[3] A *replica* is a copy of an original.

8.1 The Simple Past Tense of Regular Verbs

EXAMPLES	EXPLANATION
The Wright brothers **started** a bicycle business. They **dreamed** about flying. They **designed** an airplane. The president **offered** them a contract.	To form the simple past tense of regular verbs, we add *-ed* to the base form. **Base Form** / **Past Form** start / start**ed** dream / dream**ed** design / design**ed** offer / offer**ed** The past form is the same for all persons.
The Wright brothers **wanted** to *fly*. They **continued** to *study* aerodynamics.	The verb after *to* does **not** use the past form.
The Wright brothers **invented** the airplane over 100 years **ago**. We **celebrated** the 100th anniversary of flight a few years **ago**.	We often use *ago* in sentences about the past. *Ago* means *before now*.

EXERCISE 1 **Read more about the Wright brothers. Underline the past tense verbs in the following sentences.**

EXAMPLE The Wright brothers ___lived___ in Dayton, Ohio.

1. Their father worked as a Christian minister.
2. The boys learned mechanical things quickly.
3. They loved bicycles.
4. They opened the Wright Cycle Company repair shop, where they repaired bicycles.
5. They started to produce their own bicycle models.
6. The first airplane weighed over 600 pounds.
7. They succeeded in flying the first airplane in 1903.
8. Wilbur died nine years later, of typhoid.[4]
9. Orville lived to be 76 years old.

[4]*Typhoid* is a serious infection causing a fever and often death.

Charles Lindbergh and Amelia Earhart

Before You Read

1. When was the first time you traveled by airplane?
2. Do you recognize the people in the photos below?

CD 2, TR 02

Read the following textbook article. Pay special attention to the past-tense forms of *be*.

Charles Lindbergh, 1902–1974

At the beginning of the twentieth century, flight **was** new. It **was** not for everyone. It **was** only for the brave and adventurous. Two adventurers **were** Charles Lindbergh and Amelia Earhart.

Charles Lindbergh loved to fly. He **was** born in 1902, one year before the Wright brothers' historic flight. In 1927, a man offered a $25,000 reward for the first person to fly from New York to Paris nonstop. Lindbergh **was** a pilot for the United States Mail Service at that time. He wanted to win the prize. He became famous because he **was** the first person to fly alone across the Atlantic Ocean. His plane **was** in the air for 33 hours. The distance of the flight **was** 3,600 miles. There **were** thousands of people in New York to welcome him home. He **was** an American hero. He **was** only 25 years old.

Amelia Earhart, 1897–1937

Another famous American aviator[5] **was** Amelia Earhart. She **was** the first woman to fly across the Atlantic Ocean alone. She **was** 34 years old. Americans **were** in love with Earhart. In 1937, however, she **was** on a flight around the world when her plane disappeared somewhere in the Pacific Ocean. No one really knows what happened to Earhart.

[5]*Aviator* means pilot.
