Kids to the Rescue!

Hi, my name is Hellen. My classmates and I organized a school campaign called Kids to the Rescue to follow some steps to protect the environment. First, we shouldn't throw litter on the floor, please use bins. Second, we want to save paper an do more digital activities. Third, we should switch to efficient light bulbs and leds. Next, we should reduce electricity use and preserve water. Then, we should use reusable bags and reduce plastic ones. Finally, we should spread the word: reduce, reuse and recycle. Working together, we can save our planet.

FIRST	SECOND	THIRD
NEXT	**THEN**	**FINALLY**

Write and draw two three more tips to protect our enviroment
