

Decimals - Tenths

$$\begin{array}{rcl} 1 \text{ whole} & = & \text{tenths} \\ 1 & = & 1.0 \end{array}$$

$$\begin{array}{rcl} 2 \text{ wholes} & = & \text{tenths} \\ 2 & = & \end{array}$$

and tenths =

tenths

Written as a decimal

$$= \text{tenths} + \text{tenths}$$

one + tenths

and tenths =

tenths

Written as a decimal

$$= \text{tenths} + \text{tenths}$$

one + tenths

and tenths =

tenths

Written as a decimal

$$= \text{tenths} + \text{tenths}$$

ones + tenths

and tenths =

tenths

Written as a decimal

$$= \text{tenths} + \text{tenths}$$

ones + tenths

$$0.8 = 8/10 = 8 \text{ tenths}$$

$$0.9 = 9/10 = 9 \text{ tenths}$$

$$1 \text{ or } 1.0 = 10/10 = 10 \text{ tenths or } 1 \text{ whole}$$

$$1.1 = 11/10 = 11 \text{ tenths}$$

14 tenths = <small>Decimal</small>	$\frac{9}{10} =$ tenths
23 tenths = <small>Decimal</small>	$\frac{3}{10} =$ tenths
20 tenths = <small>Decimal</small>	$\frac{1}{10} =$ tenth
11 tenths = <small>Decimal</small>	$1\frac{3}{10} =$ and tenths
8 tenths = <small>Decimal</small>	$1\frac{3}{10} =$ tenths
1 tenth = <small>Decimal</small>	1.0 = tenths
1.2 = and tenths	1.2 = tenths
3.4 = and tenths	3.4 = tenths
1.7 = and tenths	1.7 = tenths
2.1 = and tenths	2.1 = tenths
