

The screenshot displays the Microsoft Access interface. On the left, the 'All Access Objects' pane shows the 'Queries' section with the query 'استعلام عن فواتير الشراء' selected. The main window is in 'Query Design' view. A table named 'فاتورة الشراء' is linked to the query. The design grid at the bottom contains three columns:

Field	Table	Sort	Show	Criteria	or
رقم الفاتورة	فاتورة الشراء		☒		
رقم العميل	فاتورة الشراء		☒		
تاريخ الشراء	فاتورة الشراء	Ascending Descending (not sorted)	☐		

Red boxes are placed over the 'Field' header, the 'Ascending' sort option, and the 'Show' checkbox in the third row.
