Listen and fill in the gaps

1: What do you think of street art?

2: I really love it! Hmm, I think when it's good, it is one of my favourite forms of art because it can be so much more ..... in its use of where it is, than anything else and I enjoy ..... art that seems to be ..... on the street much more than I enjoy, in a sort of hmm... empty gallery, I guess-yeah.

3: I think that we're quite .....that quite a lot of the galleries are .....but there are some ..... galleries and also people have ..... collections so I think what's nice about street art is everyone can ..... it. You just have to go ..... around London.

2: Yes, there are certain ..... of London where you can do like street art..... , or that are really good for street art like Shoreditch and Camden, hmm, and it's just really great.
