Nayla : Positive! I (5) _____ this tip several times and it works.
Nur : OK then, I'll try it. Thanks so much, Nayla.

4. A. Are you sure? C. That's amazing!
   B. I doubt it? D. You bet!

5. A. tried C. will try
   B. have already tried D. has ever tried

Read the text and answer questions 6 to 8.

Landslide

A landslide is a geological phenomenon which includes different types of ground movement, such as rock falls, deep failure of slopes and shallow debris flows. We usually also say that a landslide happens when a large amount of soil and rocks falls down the side of a hill, cliff or mountain.

A landslide can occur naturally or because of humans' action. Natural causes of landslide include erosion by river, heavy rains, snow or glacier melting, ocean waves which create over steepened slopes, earthquakes, volcanic eruptions, thunder and lightning, and ground water pressure. Human cause of landslide includes vibrations from machinery, traffic and road construction, blasting, mining, and logging.

6. What is the purpose of the text?
   A. To tell what a landslide is.
   B. To describe a landslide.
   C. To entertain the readers about landslide.
   D. To tell the readers about the past landslide disaster.

7. ". . . such as rock falls, deep failure of slopes and shallow debris flows." (Sentence 1). The antonym of the word 'shallow' is _____.
   A. deep B. vast C. dull D. steep

8. A landslide happens because of the following phenomena, except _____.
   A. road construction C. volcanic eruptions
   B. earthquakes D. traffic jam

9. Vian : Sorry, Ma'am. _____ I couldn't catch it.
   Teacher : O.K. I'll repeat question number six. Listen to me carefully.
   A. Be quiet, please.
   B. What is the answer, Ma'am?
   C. Why didn't you tell me about it?
   D. Could you repeat question number six, please?

10. Good morning, everybody. May I have your attention, please? We will have guests from the AUSAid next week. So I want you to welcome them. Please perform your dance. I want you to wear *batik* as well. Thank you.
    What is the announcement about?
    A. Guests from the USAid.
    B. The plan to wear batik.
    C. Guests from the AUSAid and the plan to welcome them.
    D. The plan to perform traditional dance.

Read the text and answer questions 11 and 12.

What Should You Do to Stop Nose Bleeding?
1. First, loosen the clothing around your neck.
2. Put a cotton pad in the bleeding nostril.
3. Then sit down with your head leaning forward.
4. Squeeze your nose until it stops bleeding.
5. If your nose continues to bleed, call a doctor.

11. Which statement is NOT TRUE according to the text?
    A. Loosen the clothing around the neck.
    B. Let the victim lay down with head leaning on the left side.
    C. Try to stop the bleeding by squeezing the nose.
    D. When the bleeding doesn't stop, call a doctor immediately.

12. "Squeeze your nose until it stops bleeding." What does the word 'it' refer to?
    A. The nose. C. The bleeding.
    B. The cotton. D. Squeezing the nose.

Read the text and answer questions 13 to 15.

Sanusi : Do you know how to make roast corn?
Angelina : Yes, I think I do know how to make it.
Sanusi : Really? Would you tell me how?
Angelina : Of course. To make roast corn, you will need some ears of sweet corn, 5 or more table spoons of margarine, 2 cloves of garlic and a pinch of salt. You could add some chillies if you want them to taste hot.
Sanusi : Are you sure that's all the ingredients we need?
Angelina : Certainly.
Sanusi : Then, what do we need to do?
Angelina : First, you have to peel the corn skin. Second, you have to grind the garlic, salt, and chilli (if desired). Third, you have to mix the margarine with the ground garlic mixture. Fourth, brush the corn with the margarine mixture and roast on a grill until a bit burned. Fifth, brush the corn with the margarine mixture again and roast until cooked. Serve hot or warm.
Sanusi : That's not too hard to do. Thanks Angelina.
Angelina : Anytime.

13. What is the text about?
    A. What roast corn is.
    B. How roast corn tastes.

LIVEWORKSHEETS

C. How to make roast corn.
D. What materials are needed to make roast corn.

C. people watch them in the zoo
D. they fight each other

Read the text below and answer questions 19 to 21.

Rainforests cover about 10% of the earth, but they contain 90% of the world's animals and plants. Rainforests are found in the hottest parts of the earth. They are situated in the area from the Tropic of Cancer to the Tropic of Capricorn. This is the area on both sides of the Equator.

These forests are called rainforests because it usually rains there every day. The weather is always hot and humid. The main rainforests are in America, Africa, and Asia.

The largest area of rainforest is Amazonia in South America. It is three times larger than the whole of Indonesia.

Indonesia was covered by rainforests, but many of its forests have been cut down. Some fire also destroyed the Indonesian forests, especially during the dry season.

It is hard now to reforest the bare land.

19. From the text we can conclude that rainforests cover _____ of the earth.
A. all C. a small part
B. most D. ninety percent

20. We can find rainforests _____.
A. on each equator C. between the two Tropics
B. on the Tropic of Cancer D. on the Tropic of Capricorn

21. "The weather is always hot and humid." (Paragraph 2). What does the underlined word mean?
A. Hot. B. Wet. C. Dry. D. Warm

C. The product contains 3 g of fat.
D. Sodium is not found in the product.

Read the text and answer questions 24 to 28.

Your body needs energy, protein, minerals, vitamins, and fibre. In order to get all of these, it is important to have a varied and balanced diet, and to eat the right amount of food. Your body "burns" food to energy: the amount of energy provided by food is measured in units called calories.

How many calories do you need? This depends on your weight and on what you do. When you are asleep, your body uses nearly one calorie an hour for every kilogram of weight. So a person who weighs seventy kilos uses about 560 calories while sleeping for eight hours. More calories are needed for different activities-from 100 calories an hour for reading or watching TV, to 350 calories an hour for playing football.

To calculate the number of calorie needed per day for an average person, first find out the person's ideal weight. Then multiply the weight by 40 for a woman or 46 for a man. A 60-kilo woman may need about 2400 calories a day–more if she does heavy physical work and less if she is very inactive.

24. Which statement is NOT TRUE according to the text?
A. To read something for an hour, a person needs 100 calories.
B. A person needs 350 calories per hour to play football.
C. Inactive persons do not need calories at all.
D. Food is burnt by the body to get energy.

25. How many calories do we need? It depends on _____.
A. how old we are C. our weight and what we do
B. how heavy we are D. our age and our weight

26. The text mainly tells us about _____.
A. energy B. calories C. protein D. minerals

27. A sportsman will need _____ a businessman.
A. as many calories as C. more calories than
B. not so many calories as D. less calories than

LIVEWORKSHEETS

28. ". . . more if she does heavy physical work and less if she is very inactive." (Paragraph three). The underlined word mean _____.
A. very active B. quite active C. rather active D. not active

Read the text and answer questions 29 and 30.

The Brine Effect

You will need: table salt, a large glass, an egg, a teaspoon, a dessert spoon and water.

How to do it:

1. We half fill the glass with water. Then, using the dessert spoon, we carefully put the egg in water. The egg sinks to the bottom.
2. Now we add 10 tablespoons of salt in water and mix thoroughly to make brine.
3. We put the egg in the water again. The egg floats.
4. We take the egg out and slowly fill the glass totally.
5. We put in the egg again. The egg remainssuspended in the center of the glass.

29. What should you do to make brine?
A. Put an egg into the glass.
B. Add 10 tablespoons of salt in water.
C. Take out the egg and fill the glass.
D. Put the egg into the mixture.

30. To do the experiment, you need the following, except _____.
A. a big bowl C. a teaspoon
B. an egg D. a dessert spoon

31.

USE PUPPET DOLLS TO MAKE YOUR STORYTELLING MORE INTERESTING. THE CHILDREN WILL LOVE IT

What is the tip about?
A. How to do storytelling.
B. What storytelling is.
C. Why storytelling is interesting.
D. Equipment to make storytelling interesting.

32.

Good morning everyone. I'd like to inform the weather condition today. Jakarta, Semarang, Surabaya, Denpasar, Makassar and Balikpapan are cloudy. The wind blows hard in the evening especially in Jakarta and Semarang. So please don't shelter under trees. In Medan and Padang the sun shines brightly. Heavy rain will attack Jayapura. Which statement is NOT TRUE according to the text?
A. There will be heavy rain in Jakarta and Semarang.
B. Hard wind may blow in Semarang.
C. The weather in Padang and Medan is hot.
D. Heavy rain may happen in Jayapura.

33.
"Good morning, friends. May I have your attention, please? Flood has attacked Jakarta. Many people lost their wealth. We have to do something. Let's collect our used clothes, books or shoes together. We'll send them to the Indonesian Red Cross four days from now. Thank you for your attention."
What is the announcement about?
A. How poor people live in Jakarta.
B. Why flood attacked Jakarta.
C. Asking someone to pay attention.
D. Asking people to do something.

Read the text and answer questions 34 and 35.

To make a pitcher of lemonade you will need 6 lemons, 1 cup sugar, 8 cups iced water, and 1 cup of boiling water.

Now, let's make it. First, you have to squeeze the juice from the lemons into a bowl. Then, set lemon rinds aside; strain lemon juice into a large pitcher. After that, add the sugar and iced water. And then, you have to stir until the sugar is dissolved. Once it's done, set it aside. Next, place lemon rinds in a bowl and add the boiling water. Let it stand until water is cold. Then, discard the rinds, add water to the pitcher and stir well. Refrigerate the lemonade until well chilled.

34. What does the writer write the text for?
A. To tell what a pitcher of lemonade is.
B. To explain how to make a pitcher of lemonade.
C. To tell how to make lemon juice.
D. To tell his/her experience when making a pitcher of lemonade.

35. How many steps are needed to make a pitcher of lemonade?
A. Four. B. Five. C. Six. D. Seven.

36.

What is the poster about?
A. Asking people to stop using water.
B. Asking people to find a water reservoir.
C. Asking people to use water efficiently.
D. Telling people what they should do to the water reservoir.

Read the text and answer questions 37 and 38.

I'm sure some of you have facebook accounts. Anyway, have you heard that facebook also has disadvantages? A girl was kidnapped by someone she knew from the facebook. Someone's savings has been robbed by his friend he knew from the facebook. And still many more.

Here are some tips you need to do to avoid bad happenings.
