School exchange trips

Are you going on a school exchange next summer? You're not alone! Thousands of British teens spend a week in a stranger's home in a foreign country every summer. Many of them make friends for life. Others say they will never go back!

Staying with a British family? You may worry about...

- the food: British food used to be a joke. Thanks to TV chefs, foreign travel and immigrants, it's got much better in the last ten years.
- the language: the majority of British teens didn't use to study a language at school – in fact only 40% can speak French. This means you will have to speak English more!

Our advice

- Tell the family about any food you don't like or won't eat. Even if the food looks funny, try it – you might like it!
- If you're reading this, you know you can speak good English. Have a go! If you don't want to speak, you can listen and learn.
- Be prepared for the changeable British weather! Take a raincoat and wellies for wet weather, a jumper for cold weather and sunglasses and suncream for hot weather.

Teens say

This British class of 15-year-old students from Bromsgrove School went on an Easter school exchange in Berlin. Here are their top tips:

- "Take enough money."
- "Make sure your mobile phone will work abroad – then you'll be able to text your friends at any time."
- "The first day with your host family will be a bit strange – give it some time, try not to call home right away."

Their teacher says

"School visits are a good way to make friends abroad. You'll probably have a lot in common with the teenager you stay with – you'll have the same gadgets and like the same music."
