Year 2 Science
(Week 11)
Protecting our world & Keeping our world clean

Name: _____ **Class: Year 2 A B C D** **Date:** th **March 2022**

Protecting our world

1. It is important to look after our environment. When people do things that **harm** the environment, they cause **environment destruction**. Below are some of the things that can harm the environment:

habitats pollute rubbish wild harm

Sometimes people can cause a) _ _ _ _ to animals without meaning to. Clearing forest to make land or develop a city causes destroyed b) _ _ _ _ _ _ _ _. Smoke from cars and factories can also c) _ _ _ _ _ _ _ the air that we breathe. Dropping d) _ _ _ _ _ _ _ can be dangerous because animals might think its food. Touching e) _ _ _ _ animals can also hurt them because humans can pass on germs.

2. We can help protect our world by doing the following:

LIVEWORKSHEETS

Keeping our world clean

Solid waste is rubbish we throw in bins like cans, paper and plastic. Waste which comes from living things like banana peels and egg shells can be reused and made into **compost** to help grow plants. Waste can pollute water that causes animals to become ill. Some solid waste can turn into useful objects again if we recycle.

3. Name some solid waste that you might throw in bins.

a) b) c)

4. Match the objects that these materials can be recycled into.

paper

plastic

metal cans

glass bottles

new jars

tissue

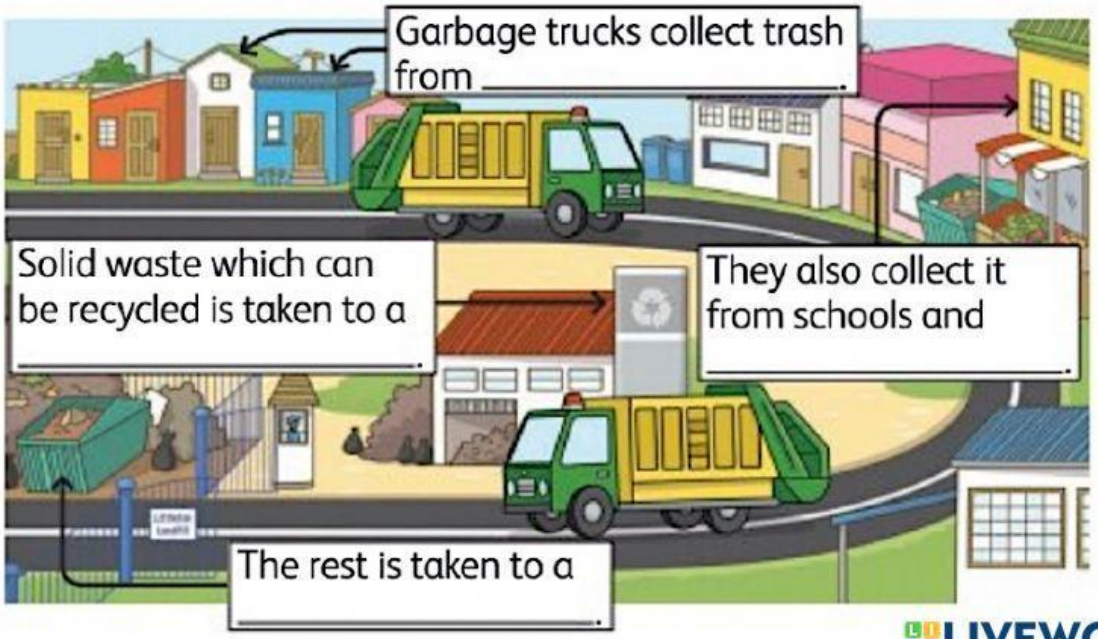

backpacks

computer parts

5. Choose the correct word to show where the garbage truck goes.
