What went wrong during the mission is not fully known. Compasses showed wrong directions and visibility was bad so the flight leader decided to navigate by landmarks which he saw 9. [redacted]. Then there was a 10. [redacted] storm and radio contact broke off. Wrecked parts of Flight 19 have never been recovered.

Ships have also disappeared in the Bermuda triangle. Among them is the Mary Celeste, an American merchant ship, in 1872. The ship was sailing from New York to Genoa but was later found off the 11. [redacted] of Africa without any crew members on board.

Although there is no evidence that the Mary Celeste even entered the Bermuda Triangle there are many who connect its mysterious disappearance with the area.

There are many theories about why so many airplanes and ships have disappeared in the Bermuda Triangle. Some suggest that there are special magnetic fields that cause 12. physical forces. Others say that the lost continent of Atlantis sank in the region causing mysterious events. There is even a theory about unknown chemicals in the waters of the Atlantic.

Some experts, however, point 13. that the region north of the Caribbean is not as 14. as it may seem. It is one of two places on Earth where the compass points to the geographic North Pole. It is also a region in which the 15. is unpredictable and where storms can emerge quickly. There are strong currents because of shallow places and deep trenches in the ocean. These factors can 16. even experienced sailors.

Over 1,000 people were killed in The Bermuda Triangle during the 20th century. Scientists have concluded that this figure is normal and most disappearances have a logical explanation. The myth of the Bermuda Triangle, however, remains.
