

## Elon Musk challenges Vladimir Putin in a series of tweets

American billionaire businessman Elon Musk is \_\_\_\_\_ for raising eyebrows on Twitter in **yet another** (очередной) bizarre tweet. The \_\_\_\_\_ of Tesla and SpaceX has staked an entire country in a single combat fight. Musk has \_\_\_\_\_ Russian President Vladimir Putin to fight over Russia's \_\_\_\_\_ military offensive in Ukraine. In his later series of tweets Musk wrote, I'm quoting: "I hereby challenge Vladimir Putin to \_\_\_\_\_ combat,"- \_\_\_\_\_ that "the \_\_\_\_\_ are Ukraine."

Musk used circle letters to write Putin's name. The tweets were directed at the Russian government's official twitter page.

In a subsequent tweet using the Russian alphabet the Tesla CEO further asked whether Putin \_\_\_\_\_ this fight and tagged the Kremlin in the post. The Tesla \_\_\_\_\_ has 77 million \_\_\_\_\_ on Twitter. Some of those \_\_\_\_\_ by saying he might not have \_\_\_\_\_ his challenge \_\_\_\_\_.

While there was no immediate reaction from the Kremlin, the Director General of the Russia's space program \_\_\_\_\_ to this. Space program \_\_\_\_\_, Dmitry Rogozin, \_\_\_\_\_ to Musk with a quote calling him "little devil."

Ukraine's Vice Prime Minister and head of Digital Transformation, Mikhail Fedorov, also weighed in on Elon's challenge in a \_\_\_\_\_ to Musk Fedorov wrote, and I'm quoting again: "I'm sure that Elon Musk can send Putin to Jupiter." Federov then posted a \_\_\_\_\_ showing Putin inside a spaceship with the word "\_\_\_\_\_ Putin to Jupiter."

Now the \_\_\_\_\_ is linked to a website where donors can \_\_\_\_\_ money towards Ukraine's defenses.

Ukraine is \_\_\_\_\_ the scene of Moscow's \_\_\_\_\_ invasion, and the fate of Eastern European country is indeed \_\_\_\_\_, the war is now in its third week. It's unclear why Musk \_\_\_\_\_ the Russian leader to test his mettle \_\_\_\_\_ rather than \_\_\_\_\_ his country's forces. That too in the \_\_\_\_\_ of a war in Europe. Musk has already \_\_\_\_\_ his \_\_\_\_\_ for Kiev. He responded to a Kiev plea by activating the Starlink Internet service in Ukraine.

Tesla's Starlink Internet terminals were \_\_\_\_\_ to the warhead zone after Vice Prime Minister of Ukraine had \_\_\_\_\_ help.
