

The life of a flower

1. Label the different parts of the plant.

The life of a flower

2. Put the events in order.

First,	Next,
	
Then,	In the end.
	

A **flower**
grows on
top.

Plant a
seed in
the soil.
Water it.

The **stem**
grows
under the
ground. It
has
leaves.

The **root**
grows out
of the seed.
It drinks the
water from
the soil.
