

1. Write the missing possessive adjective in the story
THEIR- MY- OUR – HIS – ITS – HER

One day I was at grandmother's house. It was my favorite place because I could play with dog; name was Max. We used to play so many games, but one of them was favorite. The game was to throw the ball as hard as possible and he would catch it. After play, it was relaxing time together. We were best friends. My grandmother was always saying "friendship is unique". I miss those days so much.

2. Write a short sentence using the possessive adjective "your"
