

Sense of Touch

1. Click on the correct body part that we usually use to touch.

2. Look at the pictures below. Think about how you would describe each object if you could touch them. Select the sentence that best describes each picture.

An image of an African elephant standing in a green, leafy environment.	<p> The elephant is heavy. The elephant is light.</p>	An image of a single, light-colored feather.	<p> The feather is heavy. The feather is light.</p>
An image of a round wooden table with a simple, modern design.	<p> The table is smooth. The table is rough.</p>	An image of a tree trunk with a rough, textured bark.	<p> The tree is smooth. The tree is rough.</p>
An image of a large, brown, irregularly shaped rock.	<p> The rock is soft. The rock is hard.</p>	An image of a white rabbit sitting on a patch of green grass.	<p> The rabbit is soft. The rabbit is hard.</p>

3. Click on each question to hear it. Draw a line from each picture to the correct answer.

Is a pillow hard or soft?	Is a house heavy or light?	Is a cookie rough or smooth?	Is an ant heavy or light?	Is a cup hard or soft?	Is an apple rough or smooth?
A solid, light-colored pillow.	A large, two-story house with a white exterior and a dark roof.	A chocolate chip cookie with visible chocolate chips.	A small, brown ant crawling on a surface.	A yellow coffee cup with a matching saucer.	A red and yellow apple.

rough	smooth	soft	hard	light	heavy
