

Sense of Touch

1. Click on the correct body part that we usually use to touch.

2. Look at the pictures below. Think about how you would describe each object if you could touch them. Select the sentence that best describes each picture.

	 An elephant is heavy.		 A feather is heavy.
	 An elephant is light.		 A feather is light.
	 A table is smooth.		 A tree is smooth.
	 A table is rough.		 A tree is rough.
	 A rock is soft.		 A rabbit is soft.
	 A rock is hard.		 A rabbit is hard.

3. Click on each question to hear it. Draw a line from each picture to the correct answer. (Hint: Match the question color to the answer color.)

How does a pillow feel?	How does a house feel?	How does a cookie feel?	How does an ant feel?	How does a cup feel?	How does an apple feel?
					

					
rough	smooth	soft	hard	light	heavy
