

Tugasan 1:

Task 1:

1. Namakan kumpulan mikroorganisma bagi mikroorganisma berikut. [Band 1]
Name the groups of microorganisms for the following microorganisms. [Band 1]

Contoh Mikroorganisma Example of microorganisms	Kumpulan Mikroorganisma Groups of Microorganism
	
	
	
	
	

Virus
Virus

Bakteria
Bacteria

Protozoa
Protozoa

Kulat
Fungi

Alga
Algae

2. Nyatakan mikroorganisma berdasarkan ciri – ciri berikut. [Band 2]

State the microorganisms based on the following characteristics. [Band 2]

No.	Ciri – ciri <i>Characteristics</i>	Jenis Mikroorganisma <i>Type of microorganism</i>
A	Membiak melalui pembentukan spora <i>Reproduce through formation of spores</i>	
B	Tinggal di air tawar, tanah yang lembap dan air laut <i>Live in fresh water, moist soil and seawater</i>	
C	Wujud dalam pelbagai bentuk seperti rod, koma, sfera dan pilin <i>Exist in various shape such as rod, comma, spherical and spiral</i>	
D	Mempunyai klorofil dan menjalankan fotosintesis <i>Have chlorophyll and carry out photosynthesis</i>	
E	Wujud sebagai hablur di luar perumah <i>Exist as crystals outside the host</i>	

Virus
