

Read the following and match it with the correct movie type.

The film world is a really big world. The films that we usually watch fall under one of the following genres/types:

1. feature lots of monsters, ghosts such as Frankenstein, or Dracula. The goal of horror films is to make you scream and be afraid very afraid!
2. are films in which the heroes have lots of battles, do amazing moves and drive fast cars.
3. are love stories made to melt our hearts with stories of people finding each other and falling in love
4. films are set in the future and might be about other planets, or just about the future of our planet earth, robots, or aliens.
5. are often sad stories about difficult situations in life such as fighting cancer.
6. tell stories that happened in the latter half of the 19th century in the American Old West. often focuses on the life of a cowboy or a gunfighter who rides a horse.
7. are also a type of adventure film, these films feature heroes from comic books such as Superman, Batman and Spiderman .
8. are made of drawings not real characters such as Shrek and frozen
9. are films in which the whole plot of the film is presented by the characters through singing, sometimes accompanied by dancing.
