Data Analysis (Pictographs) - Guided Practice #1

Elena took a survey to determine the favorite snacks of students in her school. She organized her data using a pictograph.

Favorite Snacks

| Snack | Number of Votes |
|-----------|-----------------|
| Chips | 6 |
| Popcorn | 4 |
| Ice-Cream | 7 |
| Fruit | 6 |
| Candy | 3 |

 = 2 Students

1 How many people voted for chips or ice-cream as their favorite snack?

- A 13
- B 24
- C 30
- D 26

2 What is the difference between the number of students who voted for popcorn and candy as their favorite snack?

- A 2
- B 12
- C 1
- D 3

3 Which snack received the greatest number of votes?

- A Chips
- B Popcorn
- C Ice-Cream
- D Fruit

4 What is the total number of students who participated in the survey?

- A 46
- B 50
- C 49
- D 38

The pictograph shows the number of donuts a bakery sold in four days.

Donuts Sold

| Day | Number of Donuts |
|----------|---|
| Thursday |  |
| Friday |  |
| Saturday |  |
| Sunday |  |

 = 10 Donuts

5 How many more donuts were sold on Sunday than on Thursday?

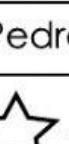

- A 2
- B 15
- C 20
- D 80

6 How many total donuts were sold on Thursday thru Sunday?

- A 150
- B 120
- C 140
- D 155

The pictograph shows the number of stickers four students have earned as classroom rewards.

Stickers Earned

| | | | |
|---|---|---|---|
|  |  |  |  |
| Amy | Pedro | Emily | Brian |

 = 5 stickers

7 How many stickers have Brian and Amy earned combined?

- A 40
- B 9
- C 55
- D 45

8 How many more stickers did Amy and Pedro earned combined than Emily?

- A 65
- B 25
- C 15
- D 35
