# Water sports

It's important to learn to swim. It keeps you safe in water. There are many great sports you can do in water, too!

## In the pool

These children are in a swimming pool. They're playing water polo. There are two goals and the players swim and throw the ball. This girl is throwing the ball at the goal.

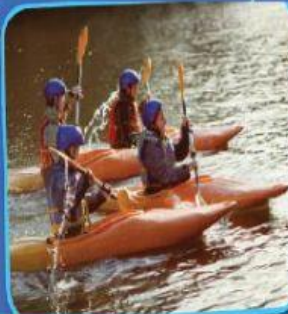

## At the beach

People do water sports at the beach, too. These children have got bodyboards. You can lie on them and float on the waves. It's a lot of fun!

## On the river

These people are in boats on the river. The boats are called kayaks. They're using paddles to move the boats in the water. They're wearing life jackets and helmets, too. The helmets protect their heads.

Some people can fly a kite and surf at the same time. This is called kitesurfing. When it's very windy, people can move fast in the water. This girl is learning to kitesurf.

## Do you know..?

There're seven players on a water polo team.

Answer the questions.

Can you play water polo in a swimming pool? \_\_\_\_\_

Can you do water sports at the beach? \_\_\_\_\_

What's the name of the boats on the river? \_\_\_\_\_
