V. Read the passage and circle the correct answer A, B, C or D for each of the following questions.

Mount Everest is the highest mountain in the world. It is also the highest trash pile in the world. About 400 people try to reach the top every year. Having many climbers means a lot of trash.

It is very dangerous to climb Mount Everest. The air is very thin and cold. Most people carry bottles of oxygen; they could die without it. When the oxygen bottles are empty, people throw them on the ground. When strong winds rip their tents, people leave **them** behind. They don't have the energy to take the trash away. They only have enough energy to go down the mountain safely.

Trash is a terrible problem. Since people first began to climb Mount Everest, they have left 50,000 kilos of trash on the mountain. Several groups have climbed the mountain just to pick up the trash. When people plan to climb the mountain, they have to plan to take away their trash.
