- 

4 Choose the correct words to complete the text.

Teens and pocket money

Some parents complain that their children (1) **are always asking / ask always** for money. Many teens (2) **get / are getting** pocket money for helping with chores around the house and the amount of money they earn (3) **increases / is increasing** regularly. This is because things (4) **are becoming / become** more and more expensive all the time. Parents of teens (5) **are often worrying / often worry** about whether they should give their children pocket money and if they choose to do so, they (6) **usually have / are usually having** a hard time deciding how much to give them. It (7) **seems / is seeming** that there really is no 'correct' amount. One way for parents to decide how much to give their children is to ask other parents what they (8) **do / are doing** when it comes to pocket money. Many of them will say that they (9) **provide / are providing** their children with a certain amount of money each week. If their children (10) **are wanting / want** to buy something special, they can save this money until they have got enough or they can do extra chores around the house for a few weeks.
