bawah sebelum  
menjawab soalan diberi.

## TAMBAH DAN TOLAK MASA

1  $7 \text{ jam} + 6 \text{ jam} - 4 \text{ jam} = \boxed{\phantom{00}} \text{ jam}$

Tambah.  
Kemudian,  
tolak.

$$\begin{array}{r} 7 \text{ jam} \\ + 6 \text{ jam} \\ \hline \boxed{\phantom{00}} \end{array} \quad \begin{array}{r} \boxed{\phantom{00}} \\ - 4 \text{ jam} \\ \hline \boxed{\phantom{00}} \end{array}$$

$$7 \text{ jam} + 6 \text{ jam} - 4 \text{ jam} = \boxed{\phantom{00}}$$

2  $40 \text{ minit} - 9 \text{ minit} + 28 \text{ minit} = \boxed{\phantom{00}} \text{ minit}$

$$\begin{array}{r} ~~40~~ \text{ minit} \\ - 9 \text{ minit} \\ \hline \boxed{\phantom{00}} \end{array} \quad \begin{array}{r} \boxed{\phantom{00}} \\ + 28 \text{ minit} \\ \hline \boxed{\phantom{00}} \end{array}$$

Mula-mula tolak.  
Kemudian, tambah.

$$40 \text{ minit} - 9 \text{ minit} + 28 \text{ minit} = \boxed{\phantom{00}}$$

3 Tolak 21 saat daripada jumlah 27 saat dan 43 saat.

$$27 \text{ saat} + 43 \text{ saat} - 21 \text{ saat} = \boxed{\phantom{00}} \text{ saat}$$

$$\begin{array}{r} 27 \text{ saat} \\ + 43 \text{ saat} \\ \hline \boxed{\phantom{00}} \end{array} \quad \begin{array}{r} \boxed{\phantom{00}} \\ - 21 \text{ saat} \\ \hline \boxed{\phantom{00}} \end{array}$$

$$27 \text{ saat} + 43 \text{ saat} - 21 \text{ saat} = \boxed{\phantom{00}}$$

4  $5 \text{ jam} + 2 \text{ jam } 5 \text{ menit} - 1 \text{ jam } 30 \text{ menit} = \text{ } \text{jam} \text{ } \text{menit}$

$$\begin{array}{r} 5 \text{ jam } 00 \text{ menit} \\ + 2 \text{ jam } 05 \text{ menit} \\ \hline \end{array} \quad \begin{array}{r} \phantom{5 \text{ jam }} 00 \text{ menit} \\ - 1 \text{ jam } 30 \text{ menit} \\ \hline \end{array}$$

$5 \text{ jam} + 2 \text{ jam } 5 \text{ menit} - 1 \text{ jam } 30 \text{ menit} = \text{ } \text{jam} \text{ } \text{menit}$

5  $36 \text{ menit } 50 \text{ saat} - 17 \text{ menit } 40 \text{ saat} + 20 \text{ menit } 13 \text{ saat}$   
 $= \text{ } \text{menit} \text{ } \text{saat}$

$$\begin{array}{r} 36 \text{ menit } 50 \text{ saat} \\ - 17 \text{ menit } 40 \text{ saat} \\ \hline \end{array} \quad \begin{array}{r} \phantom{36 \text{ menit }} 50 \text{ saat} \\ + 20 \text{ menit } 13 \text{ saat} \\ \hline \end{array}$$

$36 \text{ menit } 50 \text{ saat} - 17 \text{ menit } 40 \text{ saat} + 20 \text{ menit } 13 \text{ saat}$   
 $= \text{ } \text{menit} \text{ } \text{saat}$
