D. Recycling is very important to protect the environment.

LIVEWORKSHEETS

16. On the way, you can see this sign and it warns that

A. We mustn't ride our motor bikes here.

B. Motor bikes aren't prohibited here.

C. We can't park here .

D. We can ride our motor bikes here .

Rearrange the word given to make the meaningful sentence

17. littering/ if / will become/ go on/ we/ seriously/ the environment/ polluted//

→ _____:

18. We/ using/ solar energy/ can/ natural resources/ by/ save//

→ _____

Choose the word or phrase that best fits the blank space in the following passage

Earthquakes can be caused by volcanoes in certain cases. Nuclear explosions under the ground can create waves (19) _____ are very similar to natural seismic waves. The seismic energy (20) _____ in an atomic bomb is one hundred-thousandth that of the largest earthquake.

Earthquakes (21) _____ in all parts of the world. (22) _____ activity occurs along certain belts. 80% of all seismic energy is generated (23) _____ a belt that is found at the border of the Pacific Ocean. A great deal of volcanoes is also found there, and volcanoes (24) _____ many earthquakes. Japan, the Philippine Islands, New Guinea, and New Zealand are all parts of the Pacific belt.

19. A. who	B. that	C. whom	D. whose
20. A. create	B. to create	C. creating	D. created
21. A. take place	B. take in	C. take over	D. take off
22. A. frequency	B. frequencies	C. frequent	D. frequently
23. A. for	B. in	C. from	D. with
24. A. set off	B. set on	C. set in	D. set up

Read the passage and then decide whether the statements that follow are True or False

We can develop alternative sources of energy, and unless we try we'll never succeed. Instead of burning fossil fuels we should be concentrating on more economic uses of electricity, because electricity can be produced from any sources of energy.

If we didn't waste so much energy, our resources would last longer. We can save more energy by conservation than we can produce for the same money. Unless we do research on solar energy, wind power, tidal power, hydroelectric plants... our fossil fuels will run out and we'll all freeze or starve to death.

Many countries are spending much more time and money on research because the energy from the sun, the waves, and the winds last forever. We really won't survive unless we start working on cleaner and safer sources of energy.

25. However we try, we'll never succeed in developing alternative sources of energy.

26. Electricity can be produced only from burning fossil fuels.

27. We'll all freeze or starve to death if we don't try to develop alternative sources of energy.

28. The energy from the sun, the waves, and the winds last forever.

Read the passage again and choose the best answer (A, B, C or D)

LIVEWORKSHEETS

29. What can electricity be produced from?

A. Alternative sources of energy

B. Burning fossil fuel

C. Any sources of energy

D. Renewable energy

30. What will happen if we do not try to develop alternative sources of energy?

A. We will never be successful people.

B. We will all freeze or starve to death.

C. Our resources would last longer.

D. We can save money.

.Supply the correct form of the word in bracket:

31. Energy-saving bulbs help _____ save money. (CONSUME)

32. There are a lot of technological _____ designed to save energy. (INNOVATE)

33. He is one of the most enthusiastic _____ here. (CONSERVE)
